

July 20, 2007

Dr. Dean DeRoberts  
700 Third Street, Suite 303  
Neptune Beach, FL 32266

Dear Dr. DeRoberts:

Mr. Tom Rounds, Director of Emergency Services at Memorial Hospital, brought to the attention of Dr. Blake, and in turn, the Medical Executive Committee, your care of his son recently. As you will recall, Mr. Rounds' son had extensive facial lacerations from a dog bite, and was taken to Wolfson ER on July 6, 2007. Though you were not on call for Wolfson, you saw his son at the ER and proceeded to treat his lacerations.

On behalf of the Medical Staff of Memorial Hospital, I would like to commend you for this action. You acted unselfishly, and you embody all the characteristics of what it means to be a caring physician. You went above and beyond the call of duty.

Please accept this letter as recognition and appreciation of your actions. I would also like to recognize you at our next general Medical Staff meeting, which is held in November.

Sincerely,

Angela S. Martin, M.D.  
Medical Staff President, Memorial Hospital

Cc:Mr. Jim Wood, CEO Memorial Hospital  
Mr. Tom Rounds, Director of Emergency Services
